EXCLUDES

EXCL_C	Current
EXCL_D	Daily
EXCL_H	Hourly
EXCL_M	Minutely
EXCL_A	Alerts

Please see documentation for further examples and explanations of use.
These are all of the PUBLIC variables available.
Check CaSe before assuming something isn't there. <3

Variables called "readable***" are HUMAN READABLE FORMAT
of dates and times
Sunrise and Sunset are 24H times only. Daily Forecast readableDateTime is Day of Week SHORTNAME: "WED"

OVERVIEW

double lat	double lon
const char* tz	const char* units;
const char* date
